World-Class Training and Treatment
W For more than 30 years, the physicians of the Midwest Bone & Joint Institute have been caring for patients of all ages in the Chicago suburbs. They have earned a reputation as the doctors to go to when seeking innovative treatments,

award-winning care, and experienced physicians. The institute's nine surgeons are all fellowship trained and board certified/eligible; they have studied at world-renowned institutions, including the University of Chicago, Northwestern University, Rush-Presbyterian-St. Luke's, Harvard University, and the American Sports Medicine Institute.

Comprehensive Care in the Suburbs

With four suburban locations, patients can receive comprehensive care from distinguished surgeons without having to go downtown. To maximize

convenience, the institute offers a multitude of in-house orthopedic services. This allows physicians to oversee testing, diagnose issues, and develop targeted treatment plans seamlessly. In-house services include:

- Digital X-ray
- Casting and bracing capabilities
- Open MRI
- Bone density and osteoporosis screening
- Physical and occupational therapy

Experienced and Trusted Specialists

The physicians at the Midwest Bone & Joint Institute are fellowship trained to offer a wide array of adult and pediatric orthopedic specialty services, including:

- Sports injury treatment
- Minimally invasive shoulder, elbow, wrist, knee, and ankle surgery
- Ligament reconstruction of the shoulder, elbow, knee, and ankle

- Partial or total joint replacement and revision
- Anterior hip replacement
- Minimally invasive spine surgery
- Cartilage restoration
- Spine, hip, knee, and shoulder injections
- Broken bone care
- Arthritis management
- Workers compensation injury treatment
